A STANDING OVATION FOR SIX PEOPLE WHO STOOD UP FOR THE PLANET.

Every human being has the potential to change the world. But it's a special human being who'll step up and do it in the face of overwhelming challenges. The Goldman Environmental Prize was founded by Richard and Blenda Goldman in 1988 to recognize environmental activists working to make a difference in their communities, their

countries and for the planet. Each year the Prize honors six grassroots warriors—one from each of the planet's six inhabited continental regions—with an award of \$150,000. If you'd like to learn more about this year's laureates and how you can help their critically important causes, please visit goldmanprize.org.
